- Full-time at 37.5 hours per week (1.0 FTE)
- Continuing (i.e. permanent) position

Applications are invited for the position of Lecturer/Senior Lecturer in Antarctic Marine Science (equivalent to North American Assistant Professor) at Gateway Antarctica. The successful candidate will have a PhD by the time of appointment, and have a demonstrated track record or potential for, high quality teaching, research, and publication.

We particularly seek applications from individuals with the capacity to teach and research in one or more of the following areas: oceanography (including Southern Ocean), marine biology, and related subjects. Experience in Polar or Southern Ocean fieldwork and/or numerical modelling would also be welcomed.

Experience in undergraduate and graduate teaching, including the preparation and delivery of high quality lectures, labs and field trips, and the supervision of postgraduate students, will be an advantage. The successful appointee will play a key role in teaching first year and second year courses in Antarctic Studies and related fields. A willingness and ability to collaborate with Antarctic Scientists from a range of disciplinary perspectives will be an important aspect of the position.

We are seeking a candidate who ideally will be able to commence employment in May 2018 and who will be an enthusiastic member of our team-oriented Department. Gateway Antarctica is an interdisciplinary centre for Antarctica Studies and Research and is the focal point and catalyst for all Antarctic activities at the UC. Gateway Antarctica sits within the Department of Geography.

More information on our teaching and research is available on our website: <http://www.canterbury.ac.nz/science/schools-and-departments/antarctica/>
